

Wessex Water
PR19 Business plan redaction policy

This note sets out the redaction policy we have taken for the public version of our business plan.

Consistent with the proposals in our business plan to adopt an open data and open systems approach, we have kept redactions to an absolute minimum.

Redactions in the public version of our business plan are limited to material that is contrary to the interests of national security in accordance with Advice note 11 issued by Defra in February 2016. We have redacted information about the location and details of key assets and systems.

The documents with redactions are listed below.

Supporting document	Reason
4.1 Providing resilient services	Security
4.1.A Mott MacDonald flood risk assessment	Security
4.1.D – <i>Whole document redacted</i>	Security
5.3.A.1 PR19 Drinking water quality submission to DWI	Security
