STATEMENT OF DIRECTORS’ RESPONSIBILITIES IN RESPECT OF THE DIRECTORS’ REPORT AND THE FINANCIAL STATEMENTS

The directors are responsible for preparing the Directors’ Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice)

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period

In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company’s transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

NOTES TO THE ACCOUNTS
For the year to 30 June 2011

1 Accounting policies

a Basis of preparation

The accounts have been prepared on a basis consistent with last year, under the historic cost convention and in accordance with applicable accounting standards in the United Kingdom.

The financial statements have been prepared on the going concern basis because the parent company has confirmed its intention to support the company for the foreseeable future.

b Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes. Deferred tax is recognised with discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

c Cash flow

Under Financial Reporting Standard 1 (revised 1996) the company is exempt from the requirement to prepare cash flow statements on the grounds that a parent undertaking includes the company in its own published consolidated financial statements.

d Debt

Debt is initially stated at the amount of the net proceeds after deduction of issue costs. The carrying amount is increased by the finance cost in respect of the accounting year and reduced by payments made in the year.

e Interest rate instruments

Interest rate instruments may be used to hedge against interest movements on the company’s external financing. Interest payable or receivable is accounted for on an accruals basis over the life of the hedge.

2 Operating result

There were no expenses incurred by the company in either year, audit fees of £1k (2010 - £1k) were borne by other group companies.

3 Net interest payable

9 Financial instruments

a Funding and Treasury Policy

The immediate parent company Wessex Water Services Ltd (WWSL) has financed its activities through a combination of short term borrowings, long term borrowings, leases and bonds. All of the parent company bonds have been issued by the company and guaranteed by the parent company. The proceeds of the bonds are lent by the company to the parent company on the same terms as the underlying bond.

There are no other financial instruments in the company.

The treasury operations of the company are managed by a small specialist team within the parent company.

WWSL has a 25 year Licence to provide water and waste water services in the South West of England. It has a statutory obligation to provide these services and the industry regulator OFWAT has an obligation to ensure that the Licensee can continue to trade, hence there is not considered to be a risk that WWSL as guarantor will default on its obligations.
NOTES TO THE ACCOUNTS (continued)

Interest rate risk

All of the bonds are issued at a fixed rate so that there is no interest rate risk

Price index risk

Some of the bonds are index linked based upon the Retail Prices Index (RPI). As the company lends the bonds to the parent company at the same terms as the bond there is no price index risk within the company.

The bonds are indexed in relation to March or November inflation because these are the dates that the industry regulator OFWAT uses to set the prices that WWSL can charge, and therefore the bonds provide a hedge for WWSL

Capital risk management

There are no covenants based on the financial statements of the company. WWSL has covenants in respect of gearing (net debt to regulatory asset base) and interest cover (both EBITDA to net interest expenses and EBITDA less tax and maintenance to net interest expenses)
